## SEASON REPORTS FOR THE MONTH OF JULY 1874.

609

*Kadur District.*

*Weather.*—There was a heavy and good fall of rain in all the taluks of the District during the month, and the young crops in some places were rotten from the excessive showers.

The following table gives the readings of the thermometer and rain-fall as recorded at the observatory at District head-quarters for this and the previous month as contrasted with the month of July of last year:—

June 1874.	Thermometer at 9.30 A.M.	71° 8	at 3.30 P.M.	74° 22.	Rain,	7 inches	65 cents.
July	"	"	"	70° 20.	"	8 "	1 "
July 1873.	"	"	"	75° 2	"	3 "	75 "

*Crops.*—In the Maidan taluks where the rain-fall was light, the sowing of "*Hingar*" crops, such as dod ragi, black and green-grams, castor-oil, jolam, &c. was carried out in some parts, and in others the young crops under growth are doing well in localities where the ground was prepared to receive seeds, it was found impossible to conduct the sowing operation from the thickness of weeds grown thereon in the intervening rainy days. In Malnad the transplanting of paddy was carried out in fields on high grounds, while in those on lower grounds it was entirely given up from the excess of water. The growth of cardamoms, sugar-cane and coffee is satisfactory. The rot called "*koloroga*" on supari still continues to rage in the estates of the Koppa Taluk.

*Health.*—The health of the District has not been on the whole very good. Fever, small-pox and dysentery continue in the Kadur Taluk.

The total deaths from small-pox number 11, against 11 in the previous month, and the total of deaths from all causes is set down at 320, against 279 last month and 395 in July 1873.

*Cattle.*—Murrain of the "*Kuljira*" "*banjira*" and the "*Dijjira*" types continues in the Taluks of Vastara and Banavar. The loss from the attack of wild beasts is set down at 101 throughout the District, against 212 in June 1874. The total mortality from all causes amongst cattle is set down at 2,295, against 2,292 in last month and 1,980 in July 1873.

The Hymns of the Rig-Veda, in the Samhita and Pada Text, by Professor F. Max Müller, M. A., in two Volumes.—*Price, Rs. 24; packing and postage, Re. 1—12.*

\* \*The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*
